Ray Audio/Video Chat for your on-line community.

Hits: 3,394

Description: Your online community unites people with the same interests, and it is good idea to let them not only see each other's profiles but communicate interactively by means of text chat and audio/video features. Ray Audio/Video Chat is an advanced, professional, flash based and top-notch application for your on-line community that allows your community members to enjoy real time on-line talk. Ray A/V Chat consists of two parts: User area and Admin area. Ray features are as follows: customization of color scheme, design and text, membership types, skin and language switcher, draggable and resizable interface, room history, an unlimited amount of video streaming, video and audio settings, custom smilessets, custom sound alert, advanced admin panel etc. Ray operates with its own Multimedia server. Bring life to your on-line community! Download Ray Audio/Video Chat for free!
