# PHP MyVideoBlog - Automatic Wordpress VideoBlog!

Hits: 1,371

**Description:** The easiest way to create niche videoblogs with automatic updates!

The script grabs videos from several providers and automatically creates the video posts in your blog!

You choose the keywords, the category, the provider and the script makes the rest of the work!

Compatible with:

YouTube, Dailymotion, Metacafe, Viddler, Sevenload, Shufuni (Adult), PornHub (Adult), Xvideos (Adult)
