Simple Availability Booking Calendar Script

Hits: 1,858

Description: AGTC PHP Availability Calendar Script Do you rent out a holiday home, flat or villa?
Do you have a website advertising your property for let?
How would you like to be able to show your website visitors when your property is available.
Simple & easy to update availability and bookings calendar for your existing website. Download the PHP script yourself or we can install it for you.
Installs on your own website, not someone elses
This calendar can be installed on any website that allows the PHP script language and only requires one database to store your information to.
Safer, more secure and more reliable.
Its so much easier to be able to show your visitors when your property is available at the click of a button, than having to answer dozens of emails requesting availability of your holiday home, save yourself time and money by installing the AGTC Availability Calendar Script on your site today.
