How to Make Your Own Ebay

Hits: 5,419

Description: Online auctions are marvelous things; bringing people together from all over the world, to sell things amongst themselves, and take a cut off the top. Everyone has something that someone else wants, so this idea is golden - and we all know how well Ebay is doing. So now you want to build an auction, but don't know where to start? There is a lot of thought and engineering that goes into such a development, so you'll need to start out on the right foot. This article'll show you the underlying database structures and how to make things work for a peer to peer auction. This article will assume you have a good understanding of Active Server Pages and VBScript, and database methods.
