**Description:** Try Universal Web Site Tools RC1 (v 8.0.0) Our company has been creating websites for almost 5 years now. After creating several websites we realized that all website share common pages. So we started to create a PHP/MYSQL content management system. Universal WebSite Tools up to this point has been used for our company ONLY! Now we are offering it to you!

Just a small list of features include:

- Ability to Add/Edit/Delete Links, News, Articles, Scroller, Polls, Events, Files, Music, Videos, Donations, About Us and Contact Forms.
- Enable/Disable Pagination on all pages.
- Add custom colors
- Add custom sizes
- Set background colors, font colors, font styles, and font sizes.
- Style links
- Style Buttons
- Style scrollbars
- Enable/Disable clean styles for headers of all pages.
- Enable/Disable Scroll boxes for fitted content
- WYSIWYG news and article entry.
- Easy and quick installer with interface.
- And much, much, more...
