AdultScript v1.6.7 - Start your own Porn Site - Automatic Update - FFMPEG Hits: 3,612

Description: COUPON CODE: HOTSCRIPTS -- NOW 20% off!

x10 Media Script is an easy to use, easy to navigate, porn video script. After ordering you can have your new porn site up and running in minutes.

Porn sites are known for getting popular fast! Let's face it; a HUGE population is addicted to porn. And what better else to own your own porn site and capitalize on the market!

This script was written for <http://www.xtv.cc> in order to better capitalize on the revenue. From the old design xTV was making \$x/day, to the new script, and ad placements the site did a 100% turn around and is making near mid – high \$xx/day with the same amount of traffic.

See all details and features here: <http://www.x10media.com/media-script.php>

Now added FFMPEG support to convert videos to flv, and thumbs on the fly! There are too many features to list. Just check out <http://www.x10media.com/media-script.php>
