ytConverter - Online Video Conversion Script

Hits: 654

Description: The Youtube Video Converter Script is a one of a kind script coded in ASP.NET and the latest AJAX technologies.

It allows users to enter in a URL for a Youtube video, select an output format such as MP4, MOV, AVI, MPEG, 3GP then it retrieves the Video file from Youtube and converts it Online while the user waits and then presents them with a Download link to save the converted Video file to their PC.

There is no other script out there available with the features of The Youtube Video Converter.

Most scripts available only let you save the FLV file from Youtube which cannot be directly played on a PC without special software to do so.

The Youtube Video Converter script eliminates this problem by converting the FLV to a playable format.

With this Amazing script you can now run your own Youtube conversion site similar to:

WWW.VIXY.NET

You can now purchase this script at a reduced rate for a short time only.
