Tukanas Click Fraud Prevention script

Hits: 287

Description: Is your budget getting depleted by 10% or more with every useless click on your mouse button? Do you want to make sure that your Google Adsense does not get banned or blocked as a result of the blank clicks on your website? With Tukanas Click Fraud Prevention script you could easily know how many persons really visit your website and how many become customers. Detect click fraud on Pay-Per-Click Campaigns, Affiliate/Partner links, Banner Advertising... You need to keep in mind the fact that whenever you advertise in the Pay Per Click Programs such as Google's Adwords or Yahoo's Overture, there is someone or the other who is doing his best to hold you back from making the maximum profit. Click fraud has gained lot of publicity these days in the media and also in the online marketing industry because lots of people related to this industry are making huge losses as a result of this click fraud corruption. When a visitor visiting a search engine clicks on an ad with the intention to...
