The Ultimate Game Cheat CMS

Hits: 601

Description: We have introduced our new script, which is our Cheat CMS.

Basically it combines cheats with a preview of the game. E.g. if I was searching for XBOX - HALO it would bring up the cheats for the game, along with a preview video of the game. Cool huh?

What you get upon purchasing:

- PSD to the template, so you can edit it to your own taste.
- Cheat database including over 9000 cheats.
- Cheat CMS script

You can see a demo of the script here: <http://cheats.hfxe.com>

This script is based upon our Lyricing script.
