Hosted ratings and reviews solution

Hits: 820

Description: Our Rating System is hosted and easy-to-deploy rating and review service.

Our software is allowing customers to review and rate company's products, blogs, forums, news, any media - virtually anything that can be rated.

Feature Highlights:

- * It's complete hosted rating and review solution. No software to install.
- * Our rating system allows to combine different rating dimensions into one rating box.
- * Rate and Review everything - blogs, movies, music, forums, cars, restaurants, hotels, websites, software, phones, travel, books, electronics, stories and etc..
- * Completely Web 2.0 and AJAX based rating and review system, to provide a better user experience without page reloads for your site visitors.
- * You will be surprise that it takes you only 30 min to integrate on your web site.
- * Customization and integration as easy as "Google Adsense", for example.
- * It can be easily integrated with your authentication system so you can connect with your customers.
