AcuInvoice: Fast. Simple. Invoicing. By Acumantra Solutions, Inc. Hits: 1,285

Description: AcuInvoice is a secure FREE service for invoicing clients and receiving payments online. Designed with individuals and small groups in mind, AcuInvoice is used by service providers worldwide and has features that make you look professional, simplify your accounting, and help you get paid faster. With AcuInvoice you can tailor invoices with your logo and color scheme, or even use custom CSS. Additionally, AcuInvoice automatically CONFIRMS RECEIPT of the invoices you send. Integration with services including PayPal, 2Checkout.com, Authorize.net, and others let you accept credit cards and get paid faster. Recurring templates schedule invoices for automatic delivery (perfect for web hosts or retainers). Domain mapping points yourdomain.com to your account, providing a professional look that helps you win and retain clients. All AcuInvoice accounts have 256-bit data encryption to help protect your sensitive data. Developers enjoy a robust, fully documented API and PHP client library.
