# JavaScript Time Picker by the NoGray.com

Hits: 2,146

**Description:** The first ever Time Picker that utilize a very easy drag and drop interface. With it's unique design, anyone can drag the minutes or hour hands independently to select a time. Here is a quick list of features:

- Easy to use and implement.
- Independent hours and minutes hands.
- Drag the clock hands to set the time.
- Uses CSS sprites for faster loading time.
- 12 or 24 hour output with and AM and PM (translatable) ticker.
