I think this script is great.

You have everything together in one easy to manage site.

A ton of extra games to add every day to help increase your seo.

A very well thought out script and fantastic support from Kawing.

I am very fussy with the choices that I make over the internet. But the customer service and excellent support that Kawing from ArcadeScript.com gave me was so impressive that I had to grab a copy/license of this great script.

I was after an all round arcade script that had the lot and thats what I got from ArcadeScript.com. You can see the time and effort that went into this arcade script as soon as you install it. Great job Kawing on this one Thumbs up from me :).
