## Jtvmaker: Web Slideshow Generator and Album Generator

Hits: 1,011

**Description:** It can convert a bunch of photo, mp3 (optional) and lyric (optional) files into: an animated PNG slideshow file, a thumbnailed gallery page with slideshow applet, a custom slideshow app (java) and slideshow video (through mencoder). Features: multiple mp3s as music accompaniment; displaying lyric when playing mp3; fade, wipe, zoom and other transition effects; annotation text on images; built-in image filters and animation effects; CSS themes of the thumbnailed gallery page.
