Computer Management Software

Hits: 205

Description: Computer Admin Pro is an excellent application based on complex algorithm which used to join your computer hardware and software information. Software has a special feature which supports to import data from any tab- or comma-delimited file as well as SYLK, DIF, and WKS spreadsheets and FileMaker Pro databases. This allows you to consolidate multiple files and eliminate duplication of work across departments, so you always know where each unit is and what software it's running. Computer Admin Pro has a search option thru which we can search asset database by virtually any criteria and generate a variety of helpful reports
