I would really appreciate that, perhaps you can give us a good rate as well on hotscripts? The testimonial you have wrote before: "Thanks to the helpful staff at bestdatingscript.com My new site was up and running in no time. Support has been excellent, and I'd reccomend anyone considering a dating script to use bestdatingscript.com".

Recently purchased this V2.0 script and it looks overall good and stable. Beyond that like IndianMonk mentioned about the support, I am very happy as well with the service support which is important for me.

I recommend it to anyone who wants to have a dating site.

Please, before you even think of buying this script do your homework. There is tons of complaints on forums about this script being trash. Many say it does not work and the anger about not being refunded is overwhelming. This script is as close to being a scam as there is. Hotscript should ban them from posting this script. You don't need to take my word for it. Do a search for plentyoffish clone on forums and read the bad reviews. Everyone is ticked they bought this garbage. Stay away!
