CFWebstore

Hits: 11,364

Description: CFWebstore is a completely integrated web storefront and e-commerce solution. Customize the templates or utilize the built-in store settings to create your own custom store. CFWebstore can handle just about anything you want to accomplish in putting your business on the web. New features and improvements are always being added, and you'll love the flexibility and ease of learning the software. Check out the more advanced features like membership functions, role-based administration, batch order processing, delayed CC capture, and much more! The new version 6 release includes such features as SES links throughout the store, certified and automated UPS, FedEx and US Postal rates and tracking, product and article reviews, advanced promotions feature (buy 1 get 1 free, etc.), membership-based specials, gift registries, advanced tax system, PayPal Pro and Cybersource support, and much more! CFWebstore is more than a shopping cart, it gives you all the tools to make your store a big success!

CFWebstore, Million \$\$\$ software for \$300, Feb 18th, 2005

Reviewed By: jdcatz

If you have to have an ECommerce site now this is the package for you. I'm a network admin and even I built a site. Lots of great features, easy setup. The support is second to none. It works on Linux and Unix as well as Windows. Just check out the CFWebstore5 group on yahoo and see what it's all about. It just works like you spent \$\$\$\$\$\$ on your site. If you want your own or want to build stores and meet your deadlines then CFWebstore 5 is the software for you...

A great ColdFusion Web Site Manager & Ecomm System, Apr 28th, 2005

Reviewed By: jlemire

If you're looking for a web site system, you really have to take a look at CFWebstore. The newest version has some awesome features. Membership system is one of my favorites! It has a great discount system and great options for CC processing.

Super customizing capabilities too cause you get the source code! This is a very smart system. Web page manager with WYSIWYG editors...can't say enough good things about CFWebstore.

Review of CF WebStore, Feb 7th, 2006

Reviewed By: gareth99

Let me say, I was really impressed with the CFWebstore shopcart software.

We have been using this ancient cgi script called PerShop as our shopping cart since 1999 and decided to switch to a Cold Fusion shop cart that would compliment our CF web site.

Within 3 and half days, we were live and taking orders and had seamlessly integrated CFWebstore into our existing CF site.

I am really impressed with the code and integration.

Highly recommended. Great value. Many features.

Powerful and Flexible, Sep 27th, 2006

I started out in ecommerce with a hosted solution because it seemed easy. Like many ecommerce packages, it was very limiting, and I kept hitting roadblocks. After evaluating other options, I found CFWebstore. I didn't know any ColdFusion, but I gave it a shot. Two weeks later, I had the website I'd wanted all along. It looked perfect and worked better than the old one. I can't praise the software or support enough. You've found it. Stop looking.
