file hosting check, Jan 8th, 2008

Reviewed By: pietla

I just used this file hosting for the first time. I'm a US citizen so I can't really say what's the speed abroad.

I found the upload speed very nice, went full out for my connection, so that's definitely a plus.

The download speed was average, it wasn't overwhelming, but still it was ok.

I was also happy with the file size that is allowed, you can really do something with that 1Gb per file, and there's no limit on file size.

So overall a 4/5
