Flash E-Card Application

Hits: 343

Description: This fully flash website that enables you to send and receive e-cards. It's a great promotional tool for any business, or just for fun!

It's XML based, so you can easily add unlimited e-cards without even opening the flash document. It supports both jpeg and swf e-cards. It also comes with 4 sample cards (3 or them are animated/intereactive flash files) including source files, to help you get started!
