CKFinder for ASP.NET

Hits: 384

Description: CKFinder for ASP.NET is a powerful and easy to use Ajax file manager for web browsers. Its simple interface makes it intuitive and quick to learn for all kinds of users, from advanced professionals to Internet beginners.

Check out some of its features:

- Folders tree navigation: intuitive for all users.
- Quality image thumbnails, making it quick to find things.
- Multi-language support with automatic user language detection.
- Sensitive context menus for files and folders.
- Full user control: create, rename and delete folders and files.
- Full developer control: all features can be precisely configured with a powerful ACL and user roles system.
- Lightweight interface.
- No page refreshes: quick responses.
- Secure file uploads: all uploaded files are checked according to the rules set by the developer.
- Full source code included for the server side integration.
- Instant integration with FCKeditor
