**Description:** Beauty By Us has set the industry standard for accepting and recording online appointment data. We are a dedicated application service provider delivering high end business solutions to the beauty services sector. This application has quickly evolved to include the services of massage therapists, cosmetologist, nail techs and more.

Use it yourself or set booking restrictions to a level that will allow your clients to login and confirm their own appointments precisely and without assistance.

There is no need for call backs, there is no double booking and there are no confusing forms. This secure appointment interface uses click-and-go navigation and it performs 100% error checks at every step.

This online appointment system incorporates tiered security which eliminates the possibility of false positives. From inception our intent has been to keep pricing low and the affordability factor attractive for both small and franchised business partners.
