SiteOx Website Utilities - scheduled backups for your website

Hits: 478

Description: Protect your Website with regular, scheduled, offsite backups of your valuable content and data. SiteOx Website Utilities allows you to schedule your daily backup plan, store your backups to a remote location, and easily your recover in the case of failure. You can backup your MySql databases along with your site for a complete solution. We use a combination of Full and Differential backups to minimize storage and bandwidth usage while assuring that you are only two extractions away from all site content at any time. You can store your backups to an ftp site, Amazon S3, or Nirvanix. SiteOx is freeware, so get started today
