Mitch's Guest Book

Hits: 189

Description: Mitch's Guest Book is an easy to use guest book that has just 1 web page for web site visitors and 1 web page for an administrator. The screening of messages keeps spam off. A simple challenge can also be used to stop spam bots but usually isn't needed because the anti-spam screening is very effective. Text, messages, message length, and colors are all customizable. An optional email notification of new entries to the admin.
