## Free PHP Form 2 Email Processor

Hits: 1,320

**Description:** This FREE PHP form processor is easy to use, easy to install and easy to configure. It includes checking referrers (either in script or from an external file), to prevent abuse, the ability to set required fields, banned words/phrases and IPs (in script or external file), export to CSV, and language customization. Just one file with all instructions, references, and examples.
