php business directory lte

Hits: 2,249

Description: PHP Business Directory lte can add a comprehensive local business directory to your website, complete with full business profile pages, optional google maps, and more.

Key features include keyword and location search, category search, complete business profile pages, image upload, google map link field, professional administration interface, built-in admin user administration, comprehensive technical documentation.

You may find PHP Business Directory lte suitable for local business and trade directories, chamber of commerce websites, member lists, and local tourism directories.

You can enter lots of information on each business to appear in the search results and business profile page. You can also choose to allow certain business records to be highlighted as sponsors, or only give selected businesses full profile pages.
