Contrexx® Open Source WCMS

Hits: 1,135

Description: Contrexx® is a new powerful Open Source Web Content Management System (WCMS) which will assist you in the creation, administration and maintenance of contents for the internet or intranet. It's a completely web-based system with an easy-to-use WYSIWIG editor and intuitive user interface. Contrexx® is very flexible, by adding modules you can customize the CMS according to your individual demands and it requires no technical knowledge or previous training. Webinstaller included. Visit us online <http://www.contrexx.com/> to learn more.

The download version includes a webinstaller and several new modules like a link directory, Corporate Blog, Podcast, Adressdirectory, Sitemaps, Forum, Image gallery and much more.
