# Apartment Search Script

Hits: 512

**Description:** This php script uses a database to show and store the Apartment Search Directory. This script can be used as an addition to a website or as a stand alone website. Registered landlords can list their apartments for rent and show up to 3 pictures per advertisement. Visitors can browse the directory and contact the registered landlords. View members, view or delete current listings, approve or decline new listings, edit neighborhoods/regions, and view or reply to messages are all simplified for the administration (you).
