Flash Photo Gallery

Hits: 747

Description: Flash Photo Gallery allows you to create a professional XML powered Flash gallery on your website. It is only a few steps to embed into your website. You do not need Flash software. You can easily add or delete images by editing the XML file in Notepad.

Key features:

- Intuitive navigation
- Auto slideshow and adjustable slide delay
- Various screen size
- Customizable background color
- Unlimited categories and images
- Available for both vertical and horizontal images
- Auto resize image and thumbnail
- Easy to implement in your website
- Lightweight (8KB)
- Cross platform: Windows/Mac/Linux (Flash 8 or later required)
