# Living Local Website

Hits: 615

**Description:** This Living Local php script uses a database to hold member information. This script is used as a stand alone website.

Visitors can browse the classifieds and rentals listings as well as send a contact to registered ad listers about their ads. Registered users sign up free and can list classified or rental ads with up to 3 pictures per ad. Visitors and users can donate to the admin (you) using the built in Paypal donation button.

Simple administration area allows the admin (you) to view/edit/delete users, view/edit/delete pictures/ads, view/edit/delete/add categories and subcategories, reply to support tickets, and more. Website is setup for banner advertising sales using Paypal. Insertion of new banners is simple within the administration area.

This script will only work on php versions 4.4.7 and lower.
