vb movie

Hits: 385

Description: AtaBB Movie is plugin for to work with popular movie sites by collecting info and bring to the Vbulletin. This program has lot of specialities. The first one is the ability to work with vbulletin. Additionally this can work with all populer sites like imdb, yahoo movie, cdon, ofdb ve sinema.com and let your forum have a different look. Other speciality is that you can make cache the bbcodes for later views to call form the cache inseed of taking form the site again. Plus imdb like sites avoid to show the picture can be used also.
