# visual\_effect with a delay

Hits: 150

**Description:** One of the coolest things I ran across in RJS was the delay method. This delay method will do just that and delay a number of seconds. So lets say you need to highlight something that was just added to the page after the user submits it.

## Resource Specifications

<b>Platform(s):</b>	linux, windows, freebsd, osx, sun
<b>Date Added:</b>	Mar 23rd, 2008
<b>Last Updated:</b>	Mar 23rd, 2008
<b>Author:</b>	Greg Winn
