Text to PNG Script (text2PNG.com)

Hits: 799

Description: text2PNG.com provide webmasters with the ability to convert their website headlines and navigations to PNG images automaticly. The process is very simple and automated, it works by adding a small JavaScript file and selecting which tags to replace. The purpose of this script is to ease editing graphical headlines and navigations. For example, you can change the headline in Photoshop, optimize and save the image and upload it to the server to update a graphical headline, or just change the headline text in your HTML file and the image will automaticly update.
