# Basic Authentication

Hits: 532

**Description:** Welcome. Here we'll discuss how to make a basic authentication system that can be used on a web site, web script, or applications. If a high security environment is required this may not be the right solution for you, but if you're looking for an easy way to add authentication with basic and admin rights separation you should find this tutorial to be very useful.

## Resource Specifications

<b>Version:</b>	v.90
<b>Platform(s):</b>	linux, windows, freebsd, osx, sun
<b>Date Added:</b>	Apr 19th, 2008
<b>Last Updated:</b>	Apr 19th, 2008
<b>Author:</b>	Dave Torres
