AntsSoft SWFSlide - Flash Slideshow Builder

Hits: 271

Description: SWFSlide is a powerful slide show builder. It enables you to transfer a group of pictures into your own slide show in a breeze. You can also add narration, background music, text, transition animation effects and pan/zoom animation effects as you wish. The output slide shows are in the format of Adobe Flash or EXE. You can distribute them onto web sites, send them by e-mails, or burn them into CDs to share with others. If you have no web development experience, SWFSlide can help you breeze through the creation of a slide show in just several minutes. What you should do is simply to add pictures and select slide properties. If you are an experienced web designer, SWFSlide can also be a good choice to help you make slide shows for clients to save time and effort.

Resource Specifications
