3D Rotate Carousel AS 2.0

Hits: 337

Description: Advanced 3D Rotate Carousel for Flash CS3 / ActionScript 3.0.

Easy to adjust parameters for fading effects, perspective manipulation, keyboard and/or mouse enabled movements and rotation to setup your desired 3D Carousel in minutes.

You can specify an unlimited number of objects with a simple and intuitive XML configuration file. It also includes support for links and browser window resize. Enjoy!
