# phpLinkCheck v1

Hits: 706

**Description:** phpLinkCheck enables you to easily determine if all your affiliates are still linking back to you. You can create multiple profiles to manage multiple websites and easily keep track of your affiliates. No MySQL database is required as it uses text files to store all your profiles. This application also makes use of AJAX to give you results instantly. phpLinkCheck is by far the best way to keep track of your affiliates.

## Resource Specifications
