Moonmoth CMS

Hits: 2,134

Description: Know a little HTML? Have a legacy static website? Want to bring it to the 21st century? With Moonmoth CMS it can be as easy as dropping a script into your website's root folder.

Features:

- Store data in ordinary HTML files
- No *required* configuration
- Optional RSS newsfeed
- Automatic sitemap
- Built-in friendly URLs (works with any web server)
