Simfatic Forms

Hits: 158

Description: Simfatic Forms lets you create full-featured forms complete with input validations in minutes. You can have the form submissions sent to you through email, saved to a file, and have an auto-response sent to the visitor who submitted the form. Just by the press of a button you can install the form on your web server. Simfatic Forms can parse form out of an HTML page; and quickly add validations or form mail support to your existing forms.

Resource Specifications
