# Medication Reminders

Hits: 194

**Description:** Medication Reminder Systems and Service from Database Systems Corp. (DSC) automatically sends call reminders to senior citizens who enroll in this service. Using the CARE (Call Reassurance) phone systems and a secure and redundant data center, DSC provides an online registration service for senior citizens to enroll. CARE systems are also supplied to many police and sheriff's offices to contact seniors citizens to ensure they are OK. Medication reminders, home alone children (latchkey kids), and senior call reassurance are some of the profiled services that are provided by this CARE system.
