**Description:** Sales Bot Generator is a simple little script you can use to set up your personal 'exit traffic salesmen'. As soon as they get a sense someone is about to abandon your site they jump into action, giving your visitors a second chance to interact with your site and take action on your offers.

You can generate unlimited salesmen and put them on any webpage you want. Simply add one block of code to your webpage and your salesman is ready to go to work.

This is extremely easy to do, only takes a couple of minutes and full directions are provided.
