**Really good threaded message board**, Feb 20th, 2001

Reviewed By: rsforkner

I am very pleased with this message board.

Right after very easy set up, I ran into a few problems. A note to the author got things rolling.

We exchanged a few notes and I received some updated files and things are running smoothly. It is a pleasure working with someone who responds quickly and positively to the problems.

I suggest you give it a try.
