# RealAudio RAM Song List Creator

Hits: 1,663

**Description:** Designed for RealAudio or RealVideo-based websites, this program lets your visitors create their own song lists which can be saved at your site or their harddiscs. By clicking the generated RAM files, visitors can listen to the selected songs anytime continuously. RAM filenames are automatically assigned but can be renamed by visitors. The files older than X days will be automatically deleted. Script can be easily modified for some other similar file-creation purposes.
